Floorplan Checklist

Our Gurus work hard to ensure that you receive the highest quality of work as quickly as possible. To help us do this, we'll need the following from you to begin designing your floorplans.

- The total number of floorplans that need to be created
- Any blue prints you may have
- Overall square footage of floorplans
 - *For 2D plans, please provide any room dimensions (if available)*
- Descriptions of interiors that are to be replicated
- Flooring type and the location (i.e. carpeted bedrooms, hardwood living rooms, tiled kitchens & bathrooms, etc.)
- Photos of all living spaces (kitchen, living room, bedroom, bathroom, etc)
- Photos of any finishes (appliances, cabinets, countertops, flooring, etc)
- Will each floorplan have the same finishes or are each unique?
- Would you like to show empty closet spaces or filled?
- Branding assets that you would like incorporated (logo, colors, fonts, etc.)

For 3D Floorplans Only:

- Selection of furniture choice for plans
 - Modern, Traditional, Rustic, etc.
- Other details to be highlighted:
 - Custom color accents
 - Specific furniture placements/wall décor
